---

## WHY ARE YOU INTERESTED IN THIS APPOINTMENT?

### Required Information

---

It is every Citizen's duty to do what they can for their local Community. However, it is also equally important to help the people who help the local community in the form of City Staff. It is essential to the efficient operation of the City that the Staff's Pension Plan is administered and managed by persons who genuinely care that the Staff receive the benefits they were promised and the whole of their bargain with the Citizens of Sanibel through their City Government employment. Therefore that burden falls to persons familiar with obligations of fiduciary duties, that have advanced education and experience with the City to discharge those duties, act in good faith and that are committed to that end. The converse duty is equally important, and that duty is to the Citizens of Sanibel, that the assets they have financed must be managed in a commercially reasonable fashion, taking all available asset management advice from financial counselors, and then make decisions that will minimize any contributory impact on the City Budget. I have considerable experience in this field, both generally in business and Board duties, as well as particularly serving on this Board as Council Liaison for years and consistently being involved in all aspects of the City's Operations personally and professionally for decades. I understand the Funding sources, the difficulties that arise, and the balancing that is required to make the system successful for all concerned.
