Mark E Reiner DPM

**Mark E Reiner DPM**

1008 E Gulf Dr

Sanibel, FL. 33957

My wife Laura and I along with our children have been coming to Sanibel since 1990. I have owned property since that date and now reside full time on the island following retirement. I have been and continue to be fully vested in the long term success of this unique and beautiful place in which to reside. The Sanibel Plan is much more than merely a document determining where and how many residential units can be built or what vegetation to plant or save. The Sanibel Plan is our essential document that guides development, conservation and community character. Joining The Sanibel Plan Update Steering Committee offers several compelling benefits, rooted in the opportunity to shape the future of Sanibel while contributing to its unique community and environmental legacy. Among those being influencing community development of the island, preserving and protecting environmental and cultural issues, addressing critical issues such as post-hurricane recovery and infrastructure resiliency and representing the interests of residents, businesses and visitors. Becoming a member of the committee is a chance to make a tangible difference in a unique community, protect its environmental and cultural heritage while addressing critical challenges of managing growth, conserving natural resources and enhancing public spaces.
