

AGENDA MEMORANDUM

Public Works Department

City Council Regular Meeting Date: July 30, 2025

To: City Council
From: Fred Mittl, Public Works Director
Scott Krawczuk, Deputy Public Works Director
Date: July 16, 2025

SUBJECT: Periwinkle Way Milling and Resurfacing Project

Consider approving a proposal from Bowman Consulting Group LTD to provide construction engineering and inspection services (CEI) in the amount of \$65,000 and authorize the City Manager to execute the contract.

BACKGROUND: Hurricane Ian impacted Sanibel Island in September of 2022 and caused significant damage to infrastructure island wide including the City's public road system. Damage was caused by standing saltwater storm surge and excessive use of the roadways from heavy construction vehicles reducing the lifespan of public road asphalt and pavement markings.

The Periwinkle Way Milling and Resurfacing Project includes milling and resurfacing of Periwinkle Way from approximately 500 feet west of Casa Ybel Road to approximately one-third of a mile east of Donax Street. The proposed awarded project includes a bid additive alternate for drainage swale repairs to the north side of Periwinkle Way at Palm Street, Fitzhugh Street and Main Street.

At the July 15, 2025 City Council meeting the construction portion of the project was awarded to Southern Striping Solutions, LLC. Construction is funded by a Florida Department of Transportation (FDOT) Grant 454841-1. Due to FDOT requirements, CEI services cannot be performed by the design engineering firm. The City received a proposal from Bowman Consulting Group LTD to perform the CEI services and detailed services to be provided are described in the attached proposal. The City is currently entered into a Professional Services Agreement with Bowman Consulting Group LTD to perform Hurricane Ian related engineering work through September 20, 2028. The cost for these necessary services is \$65,000.

FUNDING SOURCE: The funding summary table is shown on the next page. The FDOT grant noted above provides \$1,00,000.00 for construction. Once construction has been completed, it is the City's intent to request reimbursement for the CEI cost if sufficient funds remain in the grant.

Project Cost and Funding Source	Amount
Engineering Project Cost	\$65,000.00
FY2025 Public Works Operating Budget (0014200-431500)	(\$65,000.00)
Funding to Appropriate	\$0.00

RECOMMENDED ACTION: Motion to approve a proposal from Bowman Consulting Group LTD in the amount of \$65,000 for construction engineering and inspection services and authorize the City Manager to initiate the services.

Sanibel is and shall remain a barrier island sanctuary
