BACKGROUND: (EDUCATION & EXPERIENCE)

## Required Information

---

Retired Senior Partner from Deloitte Consulting LLP I am an executive leader with a demonstrated history of enabling global organizations to achieve measurable value from technology and process enabled transformations. I collaborated with business and regional leadership to understand growth objectives, market factors and technology trends to define technical strategies and practical implementation roadmaps that position the enterprise towards its desired objectives. I defined and implemented best practice governance and operating models. Throughout the course of my career, my expertise was in collaborating with senior executives from Fortune 500 companies to navigate business and marketplace challenges and develop practical strategies and solutions to their most complex issues. My broad experience across financial, process and technology disciplines while being mindful of the change impacts gained the trust and support of senior client business leaders. As a local business leader that is highly invested in the Sanibel community, I aim to bring these capabilities forward to help find solutions as we navigate the medium and long term challenges facing our precious island.

## WHY ARE YOU INTERESTED IN THIS APPOINTMENT?

### Required Information

---

Our Island is facing a number of challenges. While some of these issues are as a result of recent storms and the rebuilding effort, there are also challenges that arise as a result of the natural balance between the growth in Southwest Florida and our need to be mindful of the special nature of our sanctuary island. I would like to be part of the solution. I have very strong roots in our community and believe that my professional and personal background would be a valuable asset to this committee.
