We are definitely in favor of the proposed reduction of the speed limit in the Sanctuary Wulfert Point community!

Most people and service vehicles do not currently adhere to the 30 mph speed limit. It is dangerous to walk on our streets and there are no pedestrian walkways.

Sincerely,

Sandra and Gary McKnight

My husband & I are not able to attend the meeting but are in favor of reducing the Wulfert Community speed limit from 30 to 20 mph. It has become increasingly dangerous since our roads are used for everything and not only is 30 mph ignored many are speeding.

Thank you

Patricia Reid & Douglas Taylor

Hi, Ms. Smith

This is great news! Since these streets function as our sidewalks, it makes perfect sense to lower the speed limits to protect pedestrians and their pets.

One side of the street parking should be considered as well, with builders and landscapers blocking the streets, an odd and even side of the street on alternate days would be a safety consideration as well.

Thank you in advance,
Best,
David

City of Sanibel

I am writing this email to support the petition from the Sanctuary at Wulfert Point Community Association to reduce the speed limit on Baltusrol Ct., Troon Ct. and Wulfert Rd. from the current speed limit of 30 miles per hour to 20 miles per hour. I currently live at 2647 Wulfert Rd. and the excessive speed and dangerous conditions due to commercial vehicles parked on the side that are still partially on the road and the traffic swaying around them.

Many people walk and ride their bicycles and the lack of drivers respect and safety is evident.

I recommend that the City strongly consider this well needed change for the safety of our community.

Thank you,

Joe Pariseault

It is very important to me that the speed limits on Baltusrol Ct., Troon Ct., & Wulfert Rd. be reduced from 30 miles per hour to 20 miles per hour. Many children either ride their bicycles or are pushed in strollers on these streets. There are also a lot of construction trucks. Many drivers even disregard the 30 mile an hour limit and drive much faster!

Thank you for considering this request.

Mary Butler
