**Instructions**

This form must be completed by the Licensee so that the Company can properly configure and activate the Product(s) hereunder. Please note that a new form must be completed by the Licensee and submitted to the Company each time the Licensee requests any modifications to IP address allocations, DDoS Defense, and/or BGP peering.

**Crown Castle IPv4 Address Policy**

Company conforms to the North American IP Registry (ARIN) policies regarding IP address assignments. As part of its standard delivery process, Company will only assign the amount of IP addresses that Licensee can sufficiently justify with this form for use on Licensee's local area network (LAN). Company reserves the right to perform network scans across Licensee's allocations to verify compliance. IP addresses assigned to the Licensee by Company are in conjunction with Licensee's Product hereunder. The assigned IP addresses must be returned to the Company upon termination of the Product. Company reserves the right to recall, without any liability to the Licensee, any public space not used for the purpose herein delineated. If you have any additional questions about the IP assignment policy or process, then please review ARIN's Address Assignment Policy and Procedures which can be found at <https://www.arin.net/policy/nrpm.html>.

Licensee MUST use 25% of the IP addresses requested on the day of installation, with a one-week grace period to cover equipment problems.

Licensee MUST use 50% of assigned addresses within six (6) months, or the addresses will be withdrawn.

Licensee MUST use 80% aggregate of assigned addresses before Company will issue any additional addresses. Proof of 80% aggregate utilization with detailed host break down or IP SWIP of existing space is required with the new request.

**IP Address Space Requested**

**IPv4 Addresses Requested:** Company will provide a maximum of one /24 equivalent space which can be discontinuous. Company will only provide a contiguous /24 subnet to multi-home with BGP under ARIN NRPM 2017.4 Section 4.2.3.6. Company must be the primary connection, and therefore, Licensee must have no AS-Path padding or local preference setting that would prefer another path. Licensee must also have its secondary provider confirm that they are providing Licensee with service and that the respective secondary provider is only providing link or WAN addresses and not providing Licensee with routable space. Licensee must work with ARIN directly for any requirements not otherwise stated herein.

**Please Note: Any prefix /28 and larger will be statically routed over a directly connected /30 or /31**

Cidr Size	Subnet Mask	Number of usable IPv4
/24	255.255.255.0	254
/25	255.255.255.128	126
/26	255.255.255.192	62
/27	255.255.255.224	30
/28	255.255.255.240	14
/29	255.255.255.248	6
/30	255.255.255.252	*1 (1 of 2 IP addresses is allocated to Company WAN Router)

**IPv6 Addresses Requested:**

Licensee may request a /48 for each site in its network and any sites that will be operational within twelve (12) months. A site is a discrete location that is part of a Licensee's network. A campus with multiple buildings may be considered as one or multiple sites based on the implementation of its network infrastructure. In order for a campus to be considered as multiple sites, the Licensee must submit reasonably detailed technical documentation to the Company describing how the network infrastructure is implemented in a manner equivalent to multiple sites.

**Advertising IP Blocks not assigned by Crown Castle**

Licensee shall provide Letter(s) of Authorization (each an "LOA") as required by the Company, in its sole discretion, for any IP blocks to be advertised through the Company Network. Licensee acknowledges and agrees that the Licensee may be required to submit multiple LOAs in the event such IP block was not allocated or assigned directly to the Licensee. Each LOA shall be on the respective entity's company letterhead providing such authorization. Company will withdraw advertisements for IP allocations revoked by the assigned owner of the respective IP block.

Please complete the form below

Current IP Address Allocation and Usage (List both IPv4 and IPv6 address space in use in your network from all sources)

Network	Assigned By	Date Assigned	% in Use	Being renumbered to Crown Castle?

IP Request Information			
	Block Size	Route Type	Description
IPv4 - WAN IP Block Size:		Direct	The WAN IP Block is for the connection from your router to the Company router
IPv4 - LAN IP Block Size:			The LAN IP Block is for your network. IP justification is required.
IPv6 - WAN IP Block Size:		Direct	The WAN IP Block is for the connection from your router to the Company router.
IPv6 - LAN IP Block Size:			The LAN IP Block is for your network. IP justification is required.

Please provide IP justification for the amount of IPs that are being requested (based on the LAN IPv4 block selected above).  
This is required for IPv4 requests larger than the default /30 allocation.

IP Addresses Required	Description (Routers, Firewalls, Servers, etc. Including host counts in each)

For Private BGP Peering: Please write in "Private" in the AS Number Line. Licensee will only be able to peer with the Company under Private BGP Peering. A Private AS number will be provided.

BGP Request Information	
AS Number:	
If Multihomed, please list AS's you are connected to:	
Requested Advertisement:	
MD5 Key (Plain text) if Desired:	

Please review the IP Address LOA Policy above.

Routes to be Advertised to Crown Castle

Additional Remarks

Licensee represents and warrants that the above information is true and correct. Licensee acknowledges and agrees that Internet Protocol Version 4 (IPv4) address space is limited and that users of the Internet are responsible for conserving address space and ensuring that the address space is utilized efficiently. Licensee acknowledges and agrees that the Company reserves the right, without any liability to the Licensee, to recall any address space allocated to the Licensee not used after the initial six (6) months of the applicable term for the respective Product(s) hereunder.
